## OBJECTIVE

---

Currently pursuing a B.Tech degree in Pimpri Chinchwad College Of Engineering, seeking full-time SDE roles to apply my skills and contribute effectively.

## EDUCATION

---

**Pursuing B.Tech in Information Technology** , Pimpri Chinchwad College Of Engineering Expected 2026

## SKILLS

---

<b>Programming Languages</b>	C, C++, HTML, CSS, Js, Java
<b>Soft Skills</b>	Time Management, Teamwork, Communication

## EXPERIENCE

---

<b>Competitive programming team member</b> CODCHEF Chapter	Aug 2023 - Feb 2024 <i>PCCOE, ITSA</i>
---	---

- **Learn Together:** Being in a team helps you learn from each other. You share ideas and techniques, making it easier to solve problems.
- **Work Smarter:** With a team, tasks can be divided, so everyone focuses on what they're best at. This makes solving problems faster and more efficient.
- **Event Organization:** Contributed to organizing events like ENIGMA Wars, CODECOSMOS framing questions on platforms like Polygon to challenge participants and enhance problem-solving skills collaboratively.

## PROJECTS

---

All projects can be found on [PORTFOLIO](#)

**Personal Portfolio:** Contains all the projects, personal info, achievement and journey.

**Weather app:** Uses two API's (weather forecast API and Location API) and deployed using github pages

**PIG dice game:** Two player game with fully responsive design. Also with modal section for Rules.

**ToDoList:** To-do list application using HTML, CSS, and JavaScript. It has fully responsive design and is deployed on GitHub. This application provides an intuitive user interface for managing tasks efficiently across all device sizes.

**Omnifood Clone :** Clone made using HTML, CSS, and JS. Implemented scroll functionality, deployed on Netlify, and includes working forms.

## EXTRA-CURRICULAR ACTIVITIES

---

- solved 180+ questions on [LEETCODE](#)
- 2(STAR) on CODECHEF

## LEADERSHIP

---

- I acquired leadership skills within my Codechef team by volunteering for events such as Blue Bit Hackathon, Codecosmos, and Enigma Wars. Through these experiences, I effectively coordinated team efforts, managed event logistics, and fostered a collaborative environment conducive to innovation and problem-solving.
