EDUCATION

10th (SSC) 95.20%	Completed 2019
12th (HSC) 91%	Completed 2021
B.Tech in Information Technology , Pimpri Chinchwad College Of Engineering	Expected 2026

SKILLS

Programming Languages	C, C++, HTML, CSS, Js
Technologies	Tailwind CSS, React, Node
Tools	Git, Github, Postman

PROJECTS

Shell in C: Developed a custom shell in C using **fork()**, **execvp()**, and **wait()** system calls to execute various commands, replicating standard shell functionality.

Personal Portfolio: Contains all the projects, personal info, achievement and journey.

Workout Tracker Application: Designed a geo-location-based workout tracker using JavaScript and **Leaflet.js**, featuring dynamic map markers, local storage integration, and sorting/filtering capabilities for enhanced user interaction.

Node Farm Application: Built a product management system using **Node.js** with custom HTML templating for dynamic product displays, including organic classification and responsive navigation.

Movie Tracker App: Built a **React**-based movie tracking app with search functionality, watch history management, and movie details using the **OMDB API**.

Omnifood Clone: Clone made using **HTML**, **CSS**, and **JS**. Added scroll functionality, deployed on Netlify, and includes working forms.

EXTRA-CURRICULAR ACTIVITIES

- Solved 210+ questions on [Leetcode](#)
- **3(STAR)** on [Codechef](#)
- **Global rank 123** in Starters 146 of Codechef

EXPERIENCE

Competitive programming team member	Aug 2023 - Feb 2024
Codechef Chapter	<i>PCCOE, ITSA</i>

- Polygon: Learned to use **polygon**(platform to design problems for codeforces) to design problems for Enigma Wars and Code Cosmos contests.
- testlib.h: Used the testlib.h library on Polygon for generating test cases, writing validators for test cases, and also creating checkers for the outputs of problems.
- Event Organization: Contributed to organizing events like Enigma Wars, Code Cosmos framing questions on platforms like Polygon to challenge participants and enhance problem-solving skills collaboratively.
